Housing Investment Group Co
(Public Joint Stock)

Quality Policy of the Organization

Housing Investment Group (HIC) started its activities in 1990 in fields of designing, constructing, selling, and providing after sale services regarding construction industry. Being one of the leading companies in this industry, the company intends to institutionalize organization by applying managerial systems. Following establishment of ISO9001 (quality management system), the company made its employees committed to execute quality policy and quality by law. It has put emphasis on the following mega-scopes to be achieved:

- To increase customers' satisfaction by indentifying their needs and supplying their potential and actual demands in all steps of value chain.
- To increase sales and market share by focusing on the processes of marketing, sales, and brand development as one of the key factors for achievement.
- To manage the resources and financing methods efficiently through diversification and in time and optimal supply.
- To reduce the execution time and final expense of projects within project plans by promoting the knowledge level of project manager and applying modern and updated technologies in construction process.
- To adapt projects quality with defined standards of the organization by controlling all steps of value chain continuously and focusing on interested parties' satisfaction.
- To save environment and working space health by developing health and safety culture, training employees and contractors, and providing necessary infrastructures.
- To promote participation culture in the organization by developing shared management and supporting collective thinking and group decisions for the purpose of increasing cooperation between thinkers and experienced individuals.
- To increase satisfaction and motivation in human resource of the organization by elevating skills and technical knowledge, to prove proper ground for creativity and developing human resources projects.
- To make the organization agile integrally by continuous improving of business processes, controlling and reviewing the execution method of processes, and applying information technology instruments optimally in this respect with the objective of growing organization's productivity.

Perpetual improvements in quality management system of the organization is fulfilled by focusing annually on a number of clauses in quality policy, annual goal setting of indexes, applying proper instruments to continuous control and assess the functions, implementing necessary improvement projects.

Iraj Moezzi
Managing Director

A message from Managing Director

The almighty God shall be worshiped whose obedience brings proximity and whose appreciation grows blessing. First of all, my sincere appreciation goes for the confidence of the board of directors of Hosing Investment Group Co. particularly the esteemed managing director of Bank Maskan on me and appointing me for such a critical responsibility. I hope I can fulfill their confidence during my term of office. It is a great pleasure that my office term in this great family as a leading construction company throughout the country coincides with holly Ramadhan, the month of blessing and forgiveness. Now in the presence of senior members and veterans of construction industry, I must acknowledge the valuable efforts for precious endeavors made by great people in the company, particularly the former managing directors, -Mr. Lahiji, Mr. Nazari, Mr. Nili- through 22 years. I wish ever increasing success in all their efforts for the perfection of our Islamic Country.

Construction industry as one of the most important sectors of every country's industries plays a significant role in elevating economic mega factors and national gross production of our country. In a year renowned as 'national production, support of Iranian labor and resources', our duties as a leading organization in this industry has became two folded. Therefore, one of the emphasized policies is to develop company position as an economic institute which looks for making benefit, creating desired values of customers and other beneficiaries. This goal will be achieved by focusing on the role of main company policy making, coordination and cooperation to set qualitative and quantitative goals of constructive interaction among subordinate companies on one side and continuous supervision on companies' performance and assessment of the rate of fulfilled goals on the other side.

I really hope I will achieve the perfect perspective and objectives of the company, and play an effective role in country's perfection by taking advantage of strengths and existing opportunities and removing present weaknesses. What are emphasized more in this path will be achieved by time management in executing the projects and other affairs, alerting the organization, optimizing two sided relations with subordinate companies, comprehensive improvement of the organization and development of modern financial resources.

In the end, I have to admit that objectives and policies are not attainable unless the spirit of harmony between hearts and minds is created among all my dear colleagues.

I am sure we can conquer the apex of success when I see the sense of responsibility and commitment in you.

Iraj Moezzi
Managing Director

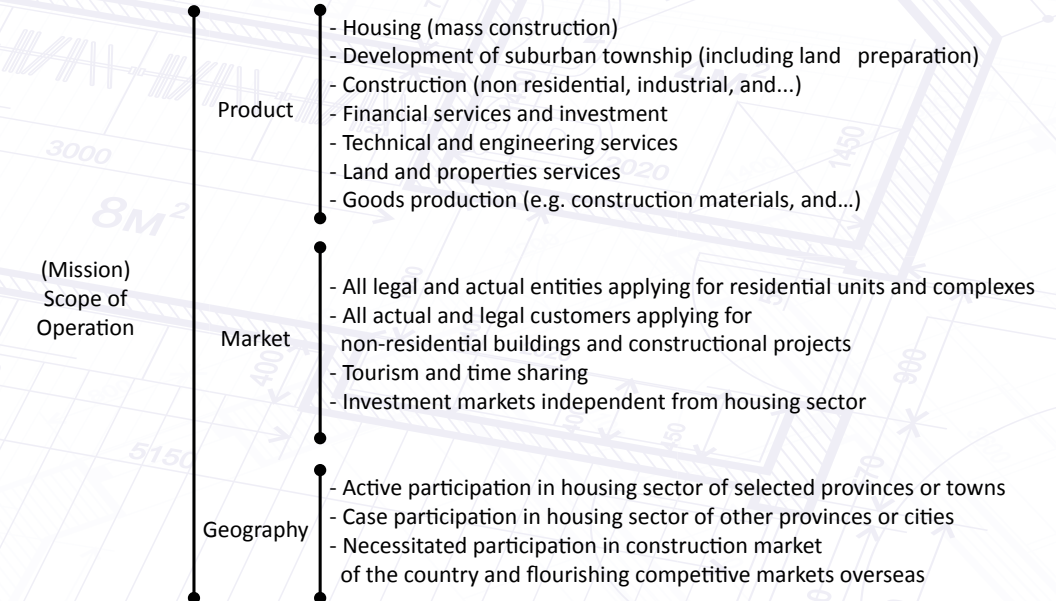

Background

Housing Investment Group (HIC) is one of the strongest mega developers in our country. The company was established in 1990 under registration number 78828 for the purpose of modeling construction quality and supplying demands of Bank Maskan customers. Since the very early days of its commencement, the execution of over 60000 residential units within more than 300 projects have been performed by the companies of HIC group among which more than 40000 units were accomplished and exploited. In addition, the company has played considerable roles in constructing commercial, official and educational complexes; constructing freeways; constructing water transfer lines; and preparing lands.

In 2003, the company could enter Tehran Stock Exchange market, and its legal structure changed from 'private joint stock' to 'public joint stock'. Through all these years, it has managed to attract the trust of capital market by making continuous benefit. The latest recorded capital of the company is RIs.2000 Billions.

Housing Investment Group Company (HIC) owns ISO 9001 2008 certificate. The company processes were first studied and analyzed in 2003 and documented according to the stated standards. In 2006, the re-engineering project of business processes started and all organization's process were planned concerning new missions and strategies. Therefore, it changed into one main company with 16 active subordinate companies in 28 provinces and 36 cities.

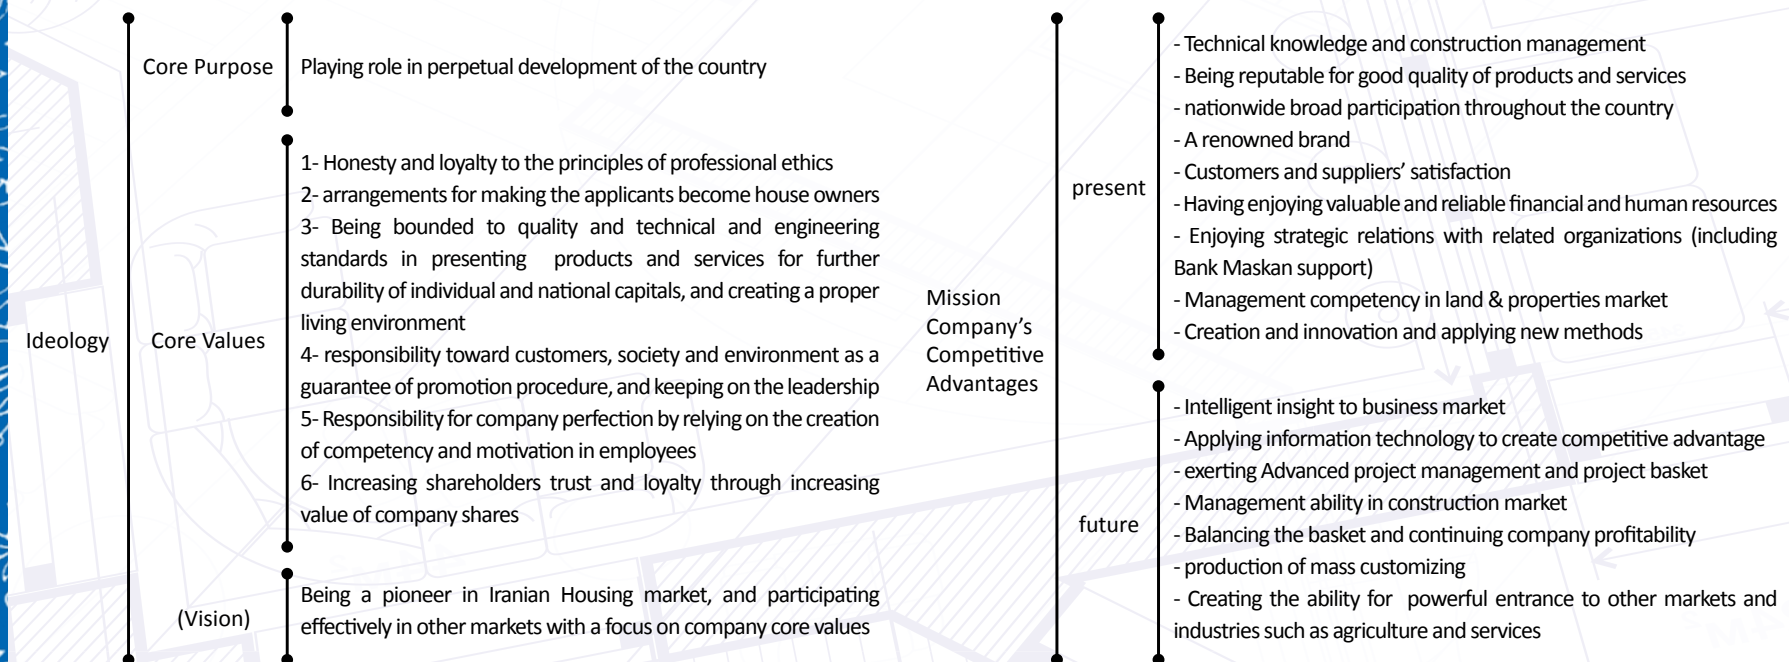

Many achievements for the company can be named including obtaining several ranks in national and international festivals and contests related to construction industry; gaining double starred official citation of the national prize of organizational productivity and perfection as well as the certificate of quality from national prize of Iran quality in 2009. Now, the company possesses valuable experiences and takes advantage of experienced professionals and managers. As always, it takes more steps in the path of perfection.

Pardis
Housing Investment
Company
(Private JS)

This company was established in July 1998 as a representative office in Pardis new town, and promoted to a branch in March 2002. In 2006, following the coverage of Semnan Province and Pardis new town, it started its activities independently under the name of Pardis Housing Investment Company. Its conditions are distinctive from other housing investment companies because of executing certain projects including preparation of a land with an area of 185 hectare's construction of free ways, bridges, and water transfer line. There are a lot of activities in the company record such as constructing more than 10000 residential units in an infrastructure around one million square meters (either accomplished or under execution). In addition, the company constructed several projects with other applications (e.g Bank Maskan Supervisory building, mosque, school, trading complex...). Constructing more than 6000 residential units within Mehr housing project at shortest time and with the highest quality is among other achievements which the company is proud of.

Mehr-e-Novin
Housing Development Company
(Private JS)

Due to the need felt by HIC for an independent company to act for Mehr Housing project and renovating old textures, Mehr-e-Novin Housing Development Company was established in September 2010 with the support and focus of Bank Maskan, and the partnership of one of reputable and reliable companies in construction industry with the following proportion of shares: Housing Investment Group Co.: 51% Housing Development International Company: 49% Possessing strong financial support, experienced engineering and valuable records of main companies, the company intends to be active in housing development in an industrial way by applying modern technologies in construction industry; and in giving all services related to design, study, supply loans, execute mass construction, participate in renovation of old textures, invest in economic projects and so on. The above advantages have allowed the company to cooperate with all governmental organizations and companies' corporative and private companies in performance of mass construction within Mehr Housing Projects and others. Among the projects of the company, the 2000-units project of Ahwaz Mehr Housing can be named.

Mehr
